About

[Get information](#) about the installed dotTrace version

Save Snapshots

Snapshot files location:

Auto-Delete Snapshots

Auto-delete snapshots that were not opened in last days.
The last snapshot taken using a particular profiling configuration will not be auto-deleted.

- Disable auto-deletion
- Ask for confirmation
- Delete without confirmation

Help Improve Our Product

You can submit anonymous usage statistics to help us make better releases and refine the most important areas of our product.

[What data will be sent?](#) >

Important: This will also enable/disable feedback for all installed JetBrains .NET tools that share the ReSharper platform such as ReSharper, dotCover, dotMemory, and dotPeek

Participate anonymously in the Feedback program

License Information

dotTrace 6.1.3 Free trial period is running. 9 days left

[Edit License](#)

There are 3 snapshots (88 MB in total) that were not opened in last 100 day(s). Do you want to delete them?
